Dear Mr. Weisberg,

I regret not mailing some of these clippings to you sooner, but I've been busy. Yesterday was the last day of classes at U.T.

When I read the the front page story in the Knoxville Journal (Nov. 11, 1978), I was amazed that they would say in this the first paragraph, "The documents allegedly involve J. Edgar Hoover, late FBI director, in an FBI assassination plot."

Not long after this story, the Guyana travesty took place, while Mark Lane was there. TRUTH IS STRANGER THAN FICTION!!!

I was in Florida (Tampa) from Oct. 20-26. During that time I saw Mark Lane on a local T.V. talk-call-in show. He was on for half an hour. He talked about proof he had that would exonerate Ray. If I'm not mistaken, I believe he said

Ray and his wife will celebrate their first anniversary away from prison. He wouldn't develop this "new evidence."

What does F Y I mean?

Did you see Barbara Walters interview Mark Lane? After watching it, I was confused ~~about~~ Mark Lane's politics. How would you characterize his political beliefs?

I want to thank you for your periodic comments.

When, and if, Ray's trial happens, I'll send you clippings.

Sincerely,

Barbara Gabriel Riney

P.S. (C.U.T.) NPR locally, didn't carry the latest installment of the King hearings. Management felt there wasn't enough interest.
